OFFSHORE

VESSEL

ESCOWA POLLUX 60HZ

Our classic water dispenser Pollux, can now be delivered in an adapted 220V/60Hz version, for the extra demanding offshore- and shipping environments.

Pollux can be used both as a tabletop and stand-alone model (stand-alone cabinet is optional) and is based on the widely approved Pro2 chilling unit, for cold still and cold sparkling water.

Pollux 60Hz point of use water dispenser, does just as well on land as on the sea, and always with the highest possible focus on quality and capacity.
