## ESCOWA PRO2 ECO/60

The Pro2 cooler, the flagship unit in our range, is destined for its maiden voyage, now targeting the large offshore and shipping industries. The 220V/60Hz version is specially adapted for the many demanding conditions of the offshore environments.

### Big performance in a small footprint

Being an undercounter unit, it can be placed in any current cabinet, as well as within any of our many cabinets available. The 60hz version of the Pro2 can be paired with the majority of our taps, making it our all-time best seller - combining high-quality and performance in the smallest possible footprint.
